The Grand Hotel Tremezzo at Lake Como slated to reopen March 14 with updated rooms and new signature suite

The Lake Como hotel will reopen next month with 30 newly refurbished Lake View Prestige Rooms, adjusted to represent the colours of the lake and surrounding areas. Aptly named, all the rooms offer balcony views over the water.

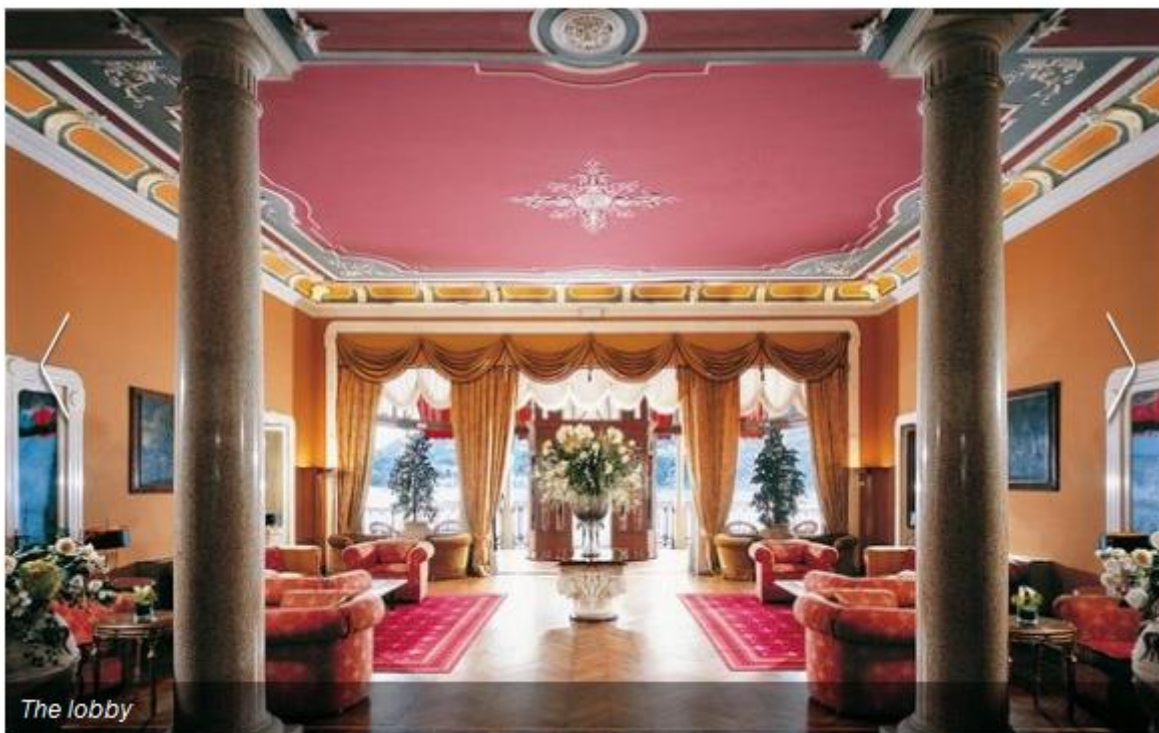

Along with the relaunched rooms, the March 14 reopening also debuts the new signature Suite Aurelia. The suite pays homage to the aunt of the hotel owner, whose personal antique collection will be displayed throughout.

Dating back to 1910, the *Grand Hotel Tremezzo* has panoramic views of both the town of Bellagio, the Riviera delle Azalee and the stunning Grigne Mountains.

The family-owned hotel has 92 rooms and suites, which all offer views of the lake or the hotel's century-old 20,000 square metre park and gardens. Italian designer, Venelli Kramer, in collaboration with the owners, has also designed the all-suite Rooftop Floor.

Each suite comes with its own private terrace, outdoor Jacuzzi, butler service and unhindered views of the lake.

To celebrate the start of the 2014 season, Grand Hotel Tremezzo has a new *Grand Opening Package*.
