BOAT TOURS

Meet our Water Limousines

Our water limousines Ruy, Batt, Pupa and Passalacqua are at your disposal to discover Lake Como magic in style. Watch the lake's must-see sights, hidden gems and lavish villas pass by as you sip your favorite tipple and revel in the glamour of it all.

Ruy

A tribute to the noble families who have given Lake Como its timeless allure, our Ruy was named after its first owner Tiberio Ruy Brandolini d'Adda. This magnificent water limousine – a prime specimen of outstanding nautical design – was "rediscovered" by the Grand Hotel Tremezzo's owners and restored at Como's famed Ernesto Riva shipyard.

Batt

This elegant, exclusive cruiser was designed by architect Ruggero Venelli and made to measure by the Vizianello shipyard in Venice, a mainstay of traditional Italian shipbuilding since the 1950s. Batt is named for Giovanni Battista Mallone, a legendary sailor and a beloved ancestor of the family that restored the Grand Hotel Tremezzo back to its former glory.

Meet our Water Limousines

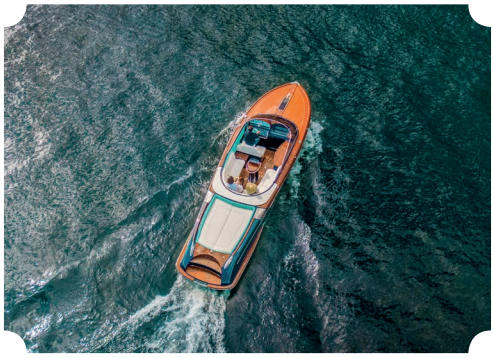

Pupa and Pupa II

Signed by Chris-Craft, American manufacturer of luxury boats since 1874, these classic beauties feature stunning woodwork and a jaunty navy-and-red nautical design. Cruising on the Pupas is an ideal way to experience Lake Como's signature charms and feel a part of its rarified history. One great figure of this history was the lady affectionately known as "Pupa", a beloved member of the Grand Hotel's founding family.

Passalacqua

The cruiser of choice on Lake Como – from the jetsetting 1960s to today – has always been the Riva! Meet the Passalacqua, the newest arrival in our marina and a shining example of the Riva Aquariva's timeless design in a contemporary key. Named after the Grand's sister property, her smooth lines continue to captivate as do her high-quality finishes, offering unparalleled comfort and classic Italian style for your cruising pleasure.
